

This Service Specification Schedule sets out the specifications of Services provided by LeaseWeb, and further details Customer's and LeaseWeb's obligations in connection with such Services. LeaseWeb's general terms and conditions (the "General Conditions"), LeaseWeb's Support and Service Level Schedule ("Support and Service Level Schedule"), and LeaseWeb's policies and guidelines with respect to the use of its Services (the "LeaseWeb Policies") are also part of the Agreement and apply to the Services and any Equipment provided by LeaseWeb.

CHAPTER A. DEFINITIONS

1. DEFINITIONS

1.1. All words capitalized herein that are defined in the General Conditions, the Support and Service Level Schedule and the LeaseWeb Policies shall have the meaning assigned to them therein; other capitalized words shall have the following meaning:

95th Percentile means the outcome of the mathematical calculation to evaluate the regular and sustained utilization of a connection, according to which: the monthly samples are sorted; the top 5% (approximately 450) samples are discarded; and the highest remaining value is used as the basis for the Service Charge for that month.

Cloud Platform means a combination of network components, storage and server systems, managed by LeaseWeb, that is used to offer Cloud Services.

Cloud Service means a Private Cloud Service and/or a Public Cloud Service.

Committed Bandwidth means the Bandwidth usage committed to by Customer on a monthly basis, as specified in the Order Form/Order Confirmation.

Committed Data Traffic means the Data Traffic committed to by Customer on a monthly basis, as specified in the Order Form/Order Confirmation.

Compute Capacity means the combination of CPU and memory that is used to run an OS on an Instance.

Extra Bandwidth means the Utilized Bandwidth on a monthly basis in excess of the Committed Bandwidths.

Extra Data Traffic means the Utilized Data Traffic on a monthly basis in excess of the Committed Data Traffic.

Flat Fee also known as unmetered fee, means a fee structure whereby the use of IP Connectivity is charged at a fixed rate per month.

Footprint means a specific area of floor space in a Data Center, indicated and specified by LeaseWeb, for the placement of Customer's Rack.

GB means 1×10^9 bytes.

Gbps or Gbit means 1×10^9 bits per second.

IANA means the Internet Assigned Numbers Association, i.e. the organisation responsible for global coordination of the Internet Protocol addressing systems, as well as the Autonomous System Numbers used for routing Internet traffic.

Inbound Traffic means the datastream from the Internet to the Customer's infrastructure.

Initial Installation means the initial installation of the OS on new or refurbished Equipment or an Instance.

Instance means a virtual machine instance in which the hardware of a machine is virtualized. The Instance runs on a Cloud Platform.

IP Connectivity means a connection to the Internet, the Service described and specified in Chapter B.

IP means internet protocol address.

Managed Private Cloud means a Cloud Platform that is custom built by LeaseWeb for Customer and which is dedicated in part or in its entirety for Customer's use.

MB means 1×10^6 bytes.

Mbps or Mbit means 1×10^6 bits per second.

Measured Fee means a fee structure whereby the use of IP Connectivity is continuously measured and will be aggregated at the end of each month.

OS means operating system, i.e. the Software on a computer that manages the way different programs use the Equipment/Instance and that regulates the manner that a user controls the Equipment/Instance.

Outbound Traffic means the datastream from the Customer's infrastructure to the Internet.

Public Cloud Service means a Service provided by LeaseWeb consisting of the provision of one or more Instances. For the avoidance of doubt, Public Cloud Service shall include the Services offered by LeaseWeb under the name "Virtual Server" and "Cloud Server".

Private Cloud Service means (as appropriate) the Service provided by LeaseWeb consisting of the provision of (i) a Managed Private Cloud, and/or (ii) a Private Cloud Resource Pool.

Private Cloud Resource Pool means a pool of resources consisting of Compute Capacity, and storage capacity, which resources can be used by Customer to deploy Instances and/or infrastructure components.

Rack means a cabinet or rack or a dedicated Footprint.

Shared Web Hosting Platform means the integrated system of Equipment, software and IP Connectivity Services that comprise the infrastructure which allows LeaseWeb to provide the Shared Web Hosting Service.

Shared Web Hosting Service means the Service provided by LeaseWeb specifically for the use of presenting Customer's website to the Internet audience, on the Shared Web Hosting Platform, as further described and specified in Clause 17.

TB means 1×10^{12} bytes.

Utilized Bandwidth means the higher of the 95th Percentile of Inbound Traffic and 95th Percentile of Outbound Traffic for the relevant month. For Cloud Services, unless otherwise agreed, the Utilized Bandwidth shall be based on the 95th Percentile of Outbound Traffic.

Utilized Data Traffic means the sum of all Inbound Traffic and Outbound Traffic for the relevant month. For Cloud Services, unless otherwise agreed, Utilized Data Traffic shall be based on Outbound Traffic only.

CHAPTER B. IP CONNECTIVITY

2. SERVICES

- 2.1. LeaseWeb offers a choice between two (2) IP Connectivity packages: Volume and Premium. Customer's choice of IP Connectivity package is specified in the Order Form/Order Confirmation. For some Services, IP Connectivity is available on a Volume or Premium basis only.
- 2.2. Customer may resell the IP Connectivity to its End Users, but shall not resell IP Connectivity in its entirety to a single End User without LeaseWeb's prior written approval, which may be granted or withheld in LeaseWeb's sole discretion.
- 2.3. Unless otherwise approved by LeaseWeb in writing, Customer is only permitted to use LeaseWeb provided connectivity options for Colocated Equipment, Instances and Dedicated Equipment.

3. BANDWIDTH AND DATA TRAFFIC

- 3.1. The Service Charge for IP Connectivity shall be charged to Customer on either of the following methodologies:

	DATA TRAFFIC (measured in GB)	BANDWIDTH (measured in bps)
FLAT FEE	N/A	LeaseWeb will invoice Customer a fixed Service Charge for the Bandwidth made available by LeaseWeb to Customer in the respective month, regardless of the amount of Inbound Traffic and/or Outbound Traffic.
MEASURED FEE	LeaseWeb will invoice Customer a fixed Service Charge for the Committed Data Traffic and a separate Service Charge for Extra Data Traffic (if any).	LeaseWeb will invoice Customer a fixed Service Charge for the Committed Bandwidth Data and a separate Service Charge for Extra Bandwidth (if any).

- 3.2. Extra Data Traffic and Extra Bandwidth will be charged to Customer in accordance with the 'surcharge rate' specified in the Order Form/Order Confirmation, or in the absence thereof, in accordance with LeaseWeb's standard rates.
- 3.3. The IP Connectivity Service is billed to Customer on a per server or on an aggregated basis, as set forth in the Order Form/Order Confirmation.
- 3.4. Customer shall not be entitled to receive any compensation or restitution in the event the Utilized Data Traffic or Utilized Bandwidth falls below the Committed Data Traffic or Committed Bandwidth respectively, nor is Customer entitled to transfer any unused parts of the Committed Data Traffic or Committed Bandwidth to another month or to Dedicated Equipment/Instances other than for which the Committed Data Traffic or Committed Bandwidth applies.
- 3.5. Utilized Data Traffic shall (for the purpose of determining the Service Charge) be rounded up to the full GB upwards.
- 3.6. For IP Connectivity Services with Committed Data Traffic of 100TB or 250TB, the following shall apply: (a) the IP Connectivity Service is based on a limited time offering, and LeaseWeb may (prematurely) cancel, modify, or withdraw said Service at any time, after fourteen (14) days' notice to Customer, (b) the IP Connectivity Service is provisioned to end-user Customers only and may not be resold, shared, or loaned by Customer to any 3rd party, and (c) Customer shall not be entitled to use the IP Connectivity Service for the purpose of operating content delivery networks and/or streaming media services.

4. UPGRADE / DOWNGRADE / SWITCH

- 4.1. Subject to the provisions of the change order procedure set forth in Clause 5 of the General Conditions and the provisions of this Clause 4, Customer may request an upgrade/downgrade/switch with respect to IP Connectivity.
- 4.2. Subject to LeaseWeb having sufficient capacity at the time of Customer's request, Customer may request to upgrade the Committed Data Traffic or Committed Bandwidth at any time. If LeaseWeb has determined that it has sufficient capacity to accept Customer's request, the upgrade will become effective: (a) the first day of the month in which LeaseWeb has accepted Customer's request, in the event that Customer's written request was received by LeaseWeb before the 20th day of that month; or (b) the first day of the month following the month in which LeaseWeb has accepted Customer's request, in the event that the Customer's request was received by LeaseWeb on or after the 20th day of that month.
- 4.3. Customer is allowed to downgrade the Committed Data Traffic or Committed Bandwidth at the end of the Initial Term or renewal term of the applicable Order.
- 4.4. Without prejudice to the generality of the provisions set forth above in Clause 4.1, Customer shall not be entitled to switch between Data Traffic and/or Bandwidth, unless such switch has been accepted in writing by an authorized representative of LeaseWeb.

5. MONITORING

- 5.1. LeaseWeb's monitoring platform measures Customer's Inbound Traffic and Outbound Traffic every 5 minutes at the Interconnection Point. LeaseWeb's Service Charges shall be based on this data.
- 5.2. The Customer Portal will make available the daily, weekly, monthly and yearly graphs of Customer's Inbound Traffic and Outbound Traffic. This feature is not available for any IP Connectivity that is part of a Shared Web Hosting Service.

6. USE OF IPS

- 6.1. IP Connectivity includes the number of LeaseWeb IPs as specified in the Order Form/Order Confirmation. LeaseWeb may make additional IPs available to Customer, subject to an additional Service Charge.
- 6.2. Customer is aware that a shortage of IPv4 IPs exists. Customer shall therefore use IPv4 IPs in a conservative manner as this is being propagated by the IANA and its RIR's (Regional Internet Registries). A request by Customer for more than three (3) IPv4 IPs per server, shall be subject to LeaseWeb's prior approval process.
- 6.3. Customer shall only use LeaseWeb IPs that have been assigned by LeaseWeb to Customer in writing.
- 6.4. Customer shall only have the temporary right of use of IPs and shall not be entitled to transfer the IPs to another internet service provider. Upon a written notice of at least two (2) months: (i) LeaseWeb may exchange the IPs that are being used by Customer; and/or (ii) in case (in LeaseWeb's sole determination) an excessive number of LeaseWeb IPs has been assigned to Customer, LeaseWeb shall be entitled to decrease the number of IPs.
- 6.5. For Shared Web Hosting Service, no individual IP per Customer shall be assigned.

CHAPTER C. DEDICATED EQUIPMENT

7. DEDICATED EQUIPMENT

- 7.1. With respect to all Dedicated Equipment, LeaseWeb shall at any time be entitled to replace Equipment, with alternative Equipment, provided that (i) the technical specifications of such alternative Equipment are (in LeaseWeb's sole determination) equal to, or equivalent to, or better than the technical specifications of the Equipment specified in the Order Form/Order Confirmation; and (ii) this shall (unless otherwise agreed) not result in an increase in the Service Charges for Lease of the Dedicated Equipment.
- 7.2. In respect of Dedicated Equipment provided by LeaseWeb, the Initial Installation will be performed by LeaseWeb on a best efforts basis. LeaseWeb is not liable to Customer for any damage resulting from any incorrect Initial Installation, unless such damage is the direct result of gross negligence or wilful misconduct on the part of LeaseWeb.
- 7.3. Subject only to any agreed Initial Installation by LeaseWeb and the restoration of the OS under the Support and Service Level Schedule, Customer shall as of the approval date referenced in clause 6.4 of the General Conditions be fully and solely liable as well as responsible for (i) any corrective and preventive maintenance, installation, updating, monitoring and configuration of the software (including the OS) installed on the Dedicated Equipment, (ii) supporting, updating, configuring and managing Dedicated Equipment, (iii) migration of customer's systems and data from and to the Dedicated Equipment, (iv) disaster recovery arrangements for the systems and data stored on the Dedicated Equipment, and (v) backing up the systems and data stored on the Dedicated Equipment.
- 7.4. If Customer has an Order for Lease of Equipment on a hourly billing basis, the lease duration (for the purpose of determining the Service Charge) shall be rounded up to the full hour upwards.
- 7.5. LeaseWeb will charge Customer for all data Traffic generated from and to the Dedicated Equipment in accordance with Chapter B (IP Connectivity), with the exception of traffic between Customer's Dedicated Equipment for which Customer has ordered and configured, the private networking option.
- 7.6. LeaseWeb may discontinue Equipment offerings at any time without prior notice to Customer.
- 7.7. LeaseWeb will not touch, maintain, use, upgrade, repair or operate Dedicated Equipment, except as required: (i) as part of Standard Support and Advanced Support Services provided by LeaseWeb, and/or (ii) in an Emergency; and/or (iii) for security purposes, and/or (iv) to comply with an order or ruling or decision or approval from a court, any law enforcement authority or any (other) governmental authority; (v) to relocate or replace Equipment in accordance with the terms of the Agreement, and/or (vi) to enforce the LeaseWeb Policies.

CHAPTER D. HOUSING SPACE

8. HOUSING SPACE

- 8.1. LeaseWeb licenses Housing Space set forth in the Order Form/Order Confirmation to Customer subject to the terms and conditions herein, for the purpose of installing, operating, and maintaining Colocated Equipment therein.
- 8.2. Customer's use of the Housing Space shall at all times be subject to this Chapter and the conduct standards and operational procedures for the Data Center as amended from time to time and as published and/or made available to Customer by LeaseWeb in writing. Customer shall ensure that its employees, agents, contractors, End Users and invitees will receive and will comply with these standards and procedures.
- 8.3. Customer shall not sublicense or resell or otherwise grant any rights to any third party, further to which the third party would be permitted to install or operate equipment in the Housing Space for its own benefit, without written consent from LeaseWeb.
- 8.4. Customer shall not place or attach its logo or any signs on or in the Data Center or Housing Space without the prior written consent of LeaseWeb, which LeaseWeb may withhold in its sole discretion.
- 8.5. Housing Space which is not being used by Customer may be used by LeaseWeb for other purposes than operating Colocated Equipment. Upon a two (2) Business day notice by e-mail, LeaseWeb will remove LeaseWeb's Equipment.
- 8.6. Customer shall not be entitled to use or place its own Rack, except with LeaseWeb's prior written consent. Should LeaseWeb grant such consent, Customer shall ensure that its Rack complies with LeaseWeb's standards, and shall be placed on the Footprint indicated by LeaseWeb.
- 8.7. Customer shall in no event modify, move, disconnect, replace, or remove any equipment, fixture, or other property of LeaseWeb or any other party in the Data Center. In the event that Customer violates the obligations under this clause, Customer shall, without a notice of default being required, pay LeaseWeb a sum of SGD 25,000 (twenty-five thousand Singapore Dollars), which is a genuine pre-estimate made by the Parties of the loss and/or damage suffered by LeaseWeb, for each such violation, notwithstanding any other rights LeaseWeb may have, such as the right to terminate this Agreement and/or the right to claim performance and/or compensation of damages suffered. Customer expressly disclaims any right, title or interest in, or any perpetual right to use, the Data Center, the Housing Space, or any equipment, fixture, or other property of LeaseWeb or any other party in the Data Center. Customer may not assign, mortgage, sublease, licence, encumber, or otherwise transfer the Housing Space, and any attempt to do so will be void.
- 8.8. Customer shall give LeaseWeb a prior written notice by e-mail at least two (2) Business days before removing any Colocated Equipment from the Housing Space. LeaseWeb has the right, but not the obligation, to investigate whether the Customer is authorized to remove Colocated Equipment from the Housing Space. LeaseWeb may also prevent Customer from removing any Colocated Equipment, if Customer is in breach of its payment obligations under the Agreement.
- 8.9. LeaseWeb will at all times have access to the Housing Space and is entitled to review any installation and/or maintenance work carried out by or on behalf of Customer. If in LeaseWeb's sole discretion, the installation and/or maintenance might jeopardize the integrity of the Housing Space, the Data Center or any equipment therein, or the Network, LeaseWeb will give Customer notice (except in the event of emergency) and LeaseWeb will be entitled (at Customer's sole expense) to remedy such installation and/or maintenance.
- 8.10. LeaseWeb will not touch, maintain, use, upgrade, repair or operate Colocated Equipment, nor will it access the Housing Space, except as required: (i) as part of Remote Hands Services provided by LeaseWeb, and/or (ii) in an Emergency; and/or (iii) for security purposes, and/or (iv) to comply with an order or ruling or decision or approval from a court, any law enforcement authority or any (other) governmental authority; and/or (v) to enforce the LeaseWeb Policies.
- 8.11. Customer shall not make any alterations to the Housing Space or the Data Center, or make construction changes or material alternations to the interior or exterior portions of the Housing Space or the Data Center, including without limitation the installation of walls, partitions, drop ceilings, lighting, HVAC, plumbing, or any electrical distribution or power supplies.

- 8.12. Customer shall ensure that all Colocated Equipment shall be rack-mountable, meets industry standards and complies with any applicable safety and other legislation and regulations. In the event in LeaseWeb's opinion the Colocated Equipment causes an Emergency, LeaseWeb shall be entitled to immediately remove such Colocated Equipment without prior notice or warning to Customer and without incurring any liability therefore towards Customer.

9. INTERCONNECTIONS

- 9.1. Customer is not allowed to install and/or have installed any connection other than the connection which has been installed and approved by LeaseWeb. Customer may request from LeaseWeb in writing that LeaseWeb permit another provider with or without a presence in the Data Center in order to establish a connection to the Housing Space. LeaseWeb may grant or deny any such request in its sole discretion.
- 9.2. In-Datacenter Cross-Connects: All physical interconnections to and from Colocated Equipment within the Data Center shall be made by LeaseWeb. Customer may request LeaseWeb to make interconnections between Colocated Equipment and (a) LeaseWeb's equipment; (b) the equipment of any local telecommunication service providers in the Data Center; and/or (c) the equipment of any Customer or provider of Customer's located in the Data Center. LeaseWeb may accept or decline Customer's request in its sole discretion. LeaseWeb shall charge Customer for the cost of all interconnections, as an additional Service Charge. Customer shall coordinate with LeaseWeb the exchange of technical information relating to its interconnection requirements in order for LeaseWeb to provide and install the relevant interconnect facilities. Customer agrees to provide LeaseWeb with at least ten (10) days prior written notice of any interconnection required by Customer. LeaseWeb shall use its best efforts to perform interconnections within fifteen (15) business days after receipt of an interconnection Service Request from Customer, subject to its acceptance of such request.
- 9.3. Local Loop Installation Support: With regard to local loops not related to Customer's use of data services purchased by Customer from LeaseWeb, Customer may request from LeaseWeb to order and install local loop connections between Colocated Equipment and local exchange or competitive providers in the Data Center. LeaseWeb may accept or decline Customer's request in its sole discretion. LeaseWeb will charge Customer an additional Service Charge for local loop installation services, and for the interconnection.
- 9.4. Local Loop Provisioning Service: In order to utilize data services purchased by Customer from LeaseWeb, Customer may request LeaseWeb to order, provide, and manage local loop connections between Colocated Equipment and local exchange or competitive access providers in the Data Center. LeaseWeb may accept or decline Customer's request in its sole discretion.
- 9.5. With respect to interconnections with local telecommunications providers, Customer may interconnect Colocated Equipment only with local telecommunications providers with a presence in the Data Center. Customers may request LeaseWeb to permit a local provider without a presence in the Data Center to establish a presence in the Housing Space. LeaseWeb may grant or deny any such request in its sole discretion. LeaseWeb shall coordinate all such connections with the Data Center owner/lessor/licensor. LeaseWeb will not guarantee that the Data Center owner/lessor/licensor will cooperate in permitting additional local telecommunications company's access to the Data Center. If LeaseWeb approves Customer's request, LeaseWeb shall manage the implementation of the local presence of LeaseWeb's Telecom providers in the Housing Space at Customer's sole cost and expense, plus a 25% project management fee.
- 9.6. Customer shall provide LeaseWeb with a cable run-out listing that contains details of every cable type used in Customer's interconnections within the Housing Space and the Data Center, and the termination points of such interconnections.
- 9.7. All cabling and connections up to the Interconnection Point (Customer's network) shall be the responsibility of Customer, and any related maintenance shall be performed by Customer. All cabling and connections from the Interconnection Point are the responsibility of LeaseWeb, and shall be maintained by LeaseWeb.

10. SERVICE INTERRUPTIONS

- 10.1. In case of an interruption or failure of any of the electrical power, back-up power, and/or HVAC serving the Housing Space and/or Colocated Equipment, LeaseWeb shall use commercially reasonable efforts to restore the affected Services as soon as possible. If LeaseWeb elects, it may substitute reasonably equivalent Services. Notwithstanding the foregoing, Customer understands and agrees that the utility systems (including the provision and maintenance of a back-up generator, electrical system and equipment, and heating, ventilating and air-conditioning system and equipment) serving the Data Center and the Housing Space may be the responsibility of third parties from whom LeaseWeb leases or licenses the Data Center, and that such systems are not within LeaseWeb's responsibility or control. Accordingly, Customer agrees that the Data Center specifications provided to Customer by LeaseWeb are targets only, which LeaseWeb shall use its best efforts to achieve. LeaseWeb shall have no liability to Customer for the unavailability, or failure of the electrical power, back-up power, and/or HVAC serving the Housing Space and/or Colocated Equipment or any utility or other system serving the Data Center and/or the Housing Space, other than the Service Credits as described in the Support and Service Level Schedule.

11. DAMAGE; REPAIR

- 11.1. Customer shall compensate LeaseWeb for the costs of any damage or destruction caused by Customer, its employees, agents, End Users, contractors, or invitees to the Housing Space, or the Data Center, or to the property of LeaseWeb or any third party. Customer shall pay such amounts to LeaseWeb within five (5) business days of receipt of an invoice for such charges from LeaseWeb. Notwithstanding the foregoing, Customer shall not be responsible for any reasonable wear and tear of the Housing Space caused by Customer's occupancy and use thereof pursuant to this Chapter.
- 11.2. Customer shall immediately report to LeaseWeb any damage or destruction of the Housing Space, the Data Center, or to the property of LeaseWeb or any third party.
- 11.3. If the Housing Space becomes damaged by fire or any other casualty, or if Customer's use of the Housing Space is interfered with due to damage to the Data Center, the Services Charges for the Colocation Services payable by Customer shall abate or be reduced proportionately for the period in which, by reason of such damage, there is substantial interference with Customer's use of the Housing Space, to the extent Customer may be required to discontinue its use of the Housing Space. Such abatement or reduction shall end if and when (i) LeaseWeb has substantially restored the Housing Space (exclusive of Customer's fixtures, furnishings, Colocated Equipment and the like or work performed therein by Customer) to substantially the condition in which the Housing Space was in prior to such damage; and/or (ii) the interference with Customer's use of the Housing Space has been eliminated. If the damage cannot reasonably be repaired within thirty (30) days from date on which the damage occurred, or if any part of the Housing Space, or those parts of the Data Center providing access to Housing Space, is taken by an

exercise of the right of eminent domain, then either party shall have the right to terminate the Order by giving written notice to the other of its election so to do.

11.4. Customer shall immediately report to LeaseWeb any damage or destruction of Equipment which is not Customer's property.

12. SPECIFICATIONS

12.1. Data Center locations:

- a) SGP01: 110 Paya Lebar Road,, Singapore.
- b) HKG-10, 11 Chun Kwong Street, Tseung Kwan O Industrial Estate, New Territories, Hong Kong.

12.2. Housing Space:

- a) Customer Footprint: W x D = 60cm x 100cm (max H = 2200cm)
- b) Customer Rack: W x D x H = 60cm x 90/100cm x 2200cm
- c) LeaseWeb Rack: W x D x H = 60cm x 90/100cm x 2200/2600cm
- d) U = approximately 4,5cm; A LeaseWeb Rack may be used to provide Housing Space to more than one (1) Customer.

12.3. Fire detection and suppression system:

- a) Provision of a fire detection and suppression system.

12.4. Power:

- a) Unless specified otherwise in the Order Form/Order Confirmation: no-break 1 x 16 Amps of 230v AC UPS and Diesel generator backed mains power (A feed) per Rack/Footprint.
- b) Should the Order Form/Order Confirmation not mention a Basic Power, the value will be 6.08 Amp (1.4kVA) per Rack/Footprint. If Customer only uses part of the Rack, the included Basic power usage will be determined pro rata; each U represents 1/46 of total Basic Power.
- c) Customer is not allowed to use more power than the Basic Power. Should Customer use more power than the Basic Power usage level, then: (i) Customer shall lower the power usage within three (3) days after being notified by LeaseWeb; and (ii) Customer shall pay a penalty for the power used in excess of the Basic Power of ten (10) times the normal power fee, charged at 0.1 Amp increments. Without prejudice to the foregoing or any rights LeaseWeb may have, in the event that - in LeaseWeb's sole discretion - the overuse of electricity endangers the Housing Space, or the (healthy operation of) equipment of LeaseWeb or any other LeaseWeb customer, or endangers the health or safety of any person, LeaseWeb shall be entitled to take any remedial action it deems necessary, including shutting down, or requiring Customer to shut down, the Colocated Equipment, or disconnecting the power feed, all without being required to issue any notice or wait for Customer to remedy the breach.
- d) The A feed shall be used as the main power feed. When available, the B feed shall be used as a backup power feed, and not as an additional main power feed.
- e) The UPS battery back-up system will provide a minimum of 5 minutes of AC power as detailed above.
- f) The diesel generator will provide a minimum of 24 hours of AC power as detailed above, before requiring its fuel to be replenished.
- g) Additional Power Fees: Customer may submit a Change Request to LeaseWeb if additional power is desired. Additional power shall at all times remain subject to availability.

12.5. Security:

- a) 24/7 site security, access control and camera monitoring. Housing Space is locked.

12.6. Floor:

- a) Housing Space is available either on a normal or on a raised floor, depending on the Data Center.
- b) The normal floor is provided with tiles, capable of withstanding a total load per Rack load of 6KN (600Kg).
- c) The raised floor is provided with a void to the underside of the tile, capable of withstanding a total load per Rack load of 4KN (400Kg).
- d) The Customer Rack or Footprint, including Rack and all Colocated Equipment, shall not exceed the maximum load as defined above. If Customer uses a LeaseWeb Rack, this maximum load will be determined pro rata.

CHAPTER E. CLOUD SERVICES

13. GENERAL

- 13.1. Any Initial Installation by LeaseWeb will be performed on a best efforts basis. LeaseWeb is not liable to Customer for any damage resulting from any incorrect Initial Installation, unless such damage is the direct result of gross negligence or wilful misconduct on the part of LeaseWeb.
- 13.2. Subject only to any agreed Initial Installation by LeaseWeb, and the restoration of the OS under the Support and Service Level Schedule, Customer shall as of the approval date referenced in clause 6.4 of the General Conditions, be fully and solely liable as well as responsible for (i) any corrective and preventive maintenance, installation, updating, monitoring and configuration of the software (including the OS) installed on the Instances, (ii) supporting, updating, configuring and managing an Instance, (iii) migration of customer's systems and data from and to the Instance, (iv) disaster recovery arrangements for the systems and data stored on the Instance, and (v) backing up the systems and data stored on the Instance.
- 13.3. LeaseWeb reserves the right at all times to select, and throughout the term of the agreement to alter, the (virtualization) technologies and methods (including software and middleware) of the Cloud Platform, in substitution for the technologies and methods set forth in the Order Form or the Order Confirmation, provided that: (i) this does not result in an increase of Service Charges, and (ii) this will not result in a decrease of Compute Capacity, memory, and/or storage capacity (in respect of Public Cloud Services) or resources of the Private Cloud Resource Pool (in respect of Private Cloud Services).
- 13.4. LeaseWeb will charge Customer for all data Traffic generated in connection with the Cloud Services in accordance with Chapter B (IP Connectivity), with the exception of Traffic generated in a private network provided by LeaseWeb or Traffic generated in a private network that is part of a Private Cloud Service.

13.5. LeaseWeb may at any time, and without notice, add, suspend, discontinue, modify or remove features from the Customer Portal and such other panels, consoles or tools offered by LeaseWeb to configure or manage the Cloud Services.

14. PUBLIC CLOUD SERVICES

14.1. This clause shall govern the provision of Public Cloud Services.

14.2. LeaseWeb will provision the number and type of Instances described in the relevant Order Form/Order Confirmation as of the RFS Date. The Order Form/Order Confirmation shall for each Instance set forth the agreed upon: (i) Compute Capacity, (ii) memory, (iii) storage capacity, and (iv) IP Connectivity.

14.3. In respect of Public Cloud Services, the network component, storage and server systems of a Cloud Platform are offered to Customer on a shared basis. LeaseWeb shall use reasonable efforts to provide Compute Capacity for Public Cloud Services with an average overbooking factor of no more than 3.5 (measured on a per Cloud Platform basis).

15. PRIVATE CLOUD SERVICES

15.1. This clause shall govern the provision of Private Cloud Services.

15.2. LeaseWeb will provide the Private Cloud Resource Pool as identified in the Order Form/Order Confirmation as of the RFS Date. Customer may freely assign the resources within the Private Cloud Resource Pool to Instances and/or infrastructure components that Customer deploys.

15.3. LeaseWeb shall deliver the Cloud Platform for Managed Private Cloud Services in accordance with the specifications set forth in the Order Form, this Service Specification, the standard LeaseWeb configuration for Managed Private Cloud (as updated from time to time) and all other documentation containing configuration specifications agreed in writing between Parties.

15.4. LeaseWeb shall patch, update and/or upgrade the software of the Cloud Platform with the latest software release supported, tested and validated by LeaseWeb.

16. UPGRADE/DOWNGRADE/CHANGE

16.1. Customer may request an upgrade/downgrade/switch:

- a) in respect of a Public Cloud Instance, of the (i) Compute Capacity, (ii) memory, and (iii) storage capacity; and
- b) in respect of Private Cloud Services, of the resources of the Private Cloud Resource Pool.

16.2. Any upgrade/switch/downgrade shall always be subject to the combinations in which the components set forth in clause 16.1 under a) and the resources of the Private Cloud Resource Pool are offered by LeaseWeb. LeaseWeb may accept or decline the request for the upgrade/switch/downgrade in its sole discretion. An upgrade/switch/downgrade shall at all times be subject to the availability of an upgrade/switch/downgrade option for the respective Cloud Service (as determined by LeaseWeb).

16.3. Customer shall be allowed to upgrade at any time. Customer is allowed to downgrade at the end of the Initial Term or renewal term of the applicable Order.

CHAPTER F. OTHER SERVICES

17. SHARED WEB HOSTING

17.1. LeaseWeb offers Shared Web Hosting Services via the Shared Web Hosting Platform on a Windows and Linux basis. The Shared Web Hosting Platform is shared with other customers of LeaseWeb and therefore resource usage limits are in place to prevent excessive use. These limits are set forth in the the Order Form, the Order Confirmation and the LeaseWeb Policies.

17.2. As part of the Shared Web Hosting Services, LeaseWeb shall make available an administration panel for managing settings, files and databases, as well as viewing website access statistics and log files. LeaseWeb shall also make FTP access available for uploading website files and documents.

17.3. LeaseWeb shall be responsible for maintaining the Equipment and software that comprise the Shared Web Hosting Platform. Unless otherwise indicated by LeaseWeb, software updates for the Shared Web Hosting Platform are performed in a monthly maintenance cycle. Upgrades and other changes in the Shared Web Hosting Platform, may affect the display or operation of Customer's hosted content and/or applications.

17.4. LeaseWeb reserves the right to change its Shared Web Hosting Platform in its commercially reasonable discretion, and LeaseWeb shall not be liable for any resulting harm to Customer.

17.5. The maximum Data Traffic allocation for IP Connectivity shall be as set forth in the Order Form or Order Confirmation. Customer acknowledges that any Data Traffic in excess thereof will be subject to additional Service Charge on a Measured Fee basis in accordance with Chapter B.

17.6. Customer shall be solely responsible for the maintenance, installation, updating, monitoring and configuration of all software and data placed by the Customer on the Shared Web Hosting Platform.

17.7. LeaseWeb backs up Customer's website files and databases nightly, with a retention of two (2) weeks. LeaseWeb makes no guarantees about the integrity of these backups. LeaseWeb may charge an additional Service Charge for any restores of backups. Notwithstanding this backup service, Customer agrees to make and maintain independent local copies of all Customer content for backup purposes. LeaseWeb will have no liability to Customer for loss, damage, integrity, usability, accessibility or destruction of any Customer content.

17.8. Customer agrees that it must have the necessary expertise to create, maintain, secure, install, update, configure and monitor Customer's web space, and further agrees that LeaseWeb shall in no event be obliged to provide this expertise or to provide support regarding the foregoing to Customer.

17.9. Customer agrees that LeaseWeb may display promotional information of its choosing along with an "under construction" logo until such time as Customer makes its website fully functional by adding its own content to the Shared Web Hosting Platform.

17.10. Only one internet appearance is allowed per Shared Web Hosting Services package.

18. TAPE ROTATION

- 18.1. LeaseWeb shall provide tape rotation services in the event agreed between Parties in writing. In the event the tape rotation is provided in relation to Dedicated Equipment, the tape rotation shall be performed as an Advanced Support Service, and in case said tape rotation is performed in relation to Colocated Equipment, the tape rotation shall be performed as a Remote Hands Service.
- 18.2. The storage location of the tapes, the times the tape rotation is performed and the frequency of the tape rotation shall be agreed between LeaseWeb and Customer in writing.
- 18.3. Customer is -and shall at all times remain- responsible for making regular backups of its data (including the backup to the storage tapes) and for the configuration and maintenance of Customer's backup program.

19. FIREWALL AND LOAD BALANCING

- 19.1. Unless otherwise agreed in the Order Form and/or the Order Confirmation, Customer shall at all times be solely responsible for the configuration and maintenance of all virtual/hardware firewalls and load balancers, irrespective whether such firewall/load balancer is provided or leased by LeaseWeb to Customer.
- 19.2. Customer may request LeaseWeb to carry out the initial installation of a hardware firewall and/or hardware load balancer. In case said hardware firewall/load balancer is leased by LeaseWeb to Customer, the configuration shall be performed as part of the Advanced Support Services, and in case said firewall and hardware load balancer is part of the Colocated Equipment, the configuration shall be performed as part of the Remote Hands Services.
- 19.3. Customer may receive or request, as part of the Cloud Services, a virtual firewall and/or load balancer. It shall be Customer's sole responsibility to configure and manage the virtual firewall and/or load balancer. LeaseWeb shall offer the functionality to perform such management and configuration through the Customer Portal.
- 19.4. Customer understands and agrees that a firewall is only part of the security of Dedicated Equipment, Colocated Equipment or Instances, and that Customer shall be responsible for taking adequate measures to protect its Dedicated Equipment, Colocated Equipment and Instance(s).
- 19.5. Regardless whether the initial configuration is performed by LeaseWeb, Customer shall be solely responsible for testing whether the hardware/virtual firewall and load balancer is adequately configured.

20. SSL

- 20.1. LeaseWeb offers SSL certificates for encryption of data traffic to and from Customer's websites. Customer understands and agrees that the SSL certificate is only part of the security of Customer's data traffic, and that Customer shall be responsible for taking additional measures to protect its website and data traffic.

21. MAIL

- 21.1. LeaseWeb offers Customer mailboxes on LeaseWeb's shared mail server. Customer may order the mailboxes per 50. The mailboxes may be used for multiple domain names.
- 21.2. LeaseWeb offers Customer Batch SMTP on LeaseWeb's shared mail server. The Batch SMTP may only be used for one (1) domain name.

22. DOMAIN NAMES

- 22.1. All domain name related tools provided on LeaseWeb's websites or the Customer Portal are provided as a convenience for Customers. LeaseWeb does not warrant the accuracy or utility of these tools.
- 22.2. Customer shall comply with the policies, guidelines, terms and conditions applied from time to time by the organization or entity which shall be responsible for the management (registration and/or distribution and/or giving into use) of an (Internet) domain, such as – for example – ICANN and SGNIC. By registering a domain name through LeaseWeb, Customer shall (in addition to the Agreement with LeaseWeb) enter into an agreement with the registry of the relevant domain name. The general terms and conditions used by such registry (as amended from time to time by the registry) shall be an integral part of said agreement with the registry, and Customer agrees to comply in all respects with all provisions set forth in said general terms and conditions.
- 22.3. As a condition to the continued registration of the domain, Customer must keep the registration information current, complete and accurate.
- 22.4. In the event Customer's End User is the holder/registrant of a domain name registered through LeaseWeb, Customer represents that it is fully authorized to act on behalf of the End User, and Customer shall indemnify LeaseWeb against all claims and demands of the End User in relation to said domain name(s). Without limiting the generality of the foregoing, Customer's End User may directly request LeaseWeb to perform administrative changes in relation to the domain names registered in its name (including change of address, change of domain name holder, etc), and LeaseWeb may accept and deny such requests in its sole discretion without Customer's consent.
- 22.5. LeaseWeb does not guarantee that Customer will be able to register or renew a desired domain name, even if an inquiry indicates that a domain name is available for registration, because LeaseWeb cannot know with certainty whether or not the domain name which Customer is seeking to register is simultaneously being sought by a third party, or whether there are any inaccuracies or errors in the domain name registration or renewal process or related databases.
- 22.6. LeaseWeb's delivery of the domain name registration service depends upon its computer system, the computer system of its subcontractors and the computer system of LeaseWeb's registrar. LeaseWeb does not guarantee that these computer systems are error-free, and LeaseWeb shall in no event be liable vis-à-vis Customer for any damages resulting from errors occurring in these systems.
- 22.7. LeaseWeb may charge Customer for all administrative actions that Customer or the domain name holder requests LeaseWeb to perform in connection with the domain name.

23. MICROSOFT SOFTWARE

- 23.1. The use by Customer of Microsoft computer software and associated documents provided to Customer by LeaseWeb, is governed by Microsoft's license terms. The latest version of such licence terms are available here: <http://www.microsoft.com/en-us/legal/intellectualproperty/UseTerms/default.aspx>. A url to license terms for the most commonly LeaseWeb-provided Microsoft software is available in the table below:

MICROSOFT PRODUCT	SKU	DOCUMENT NAME	TERMS
Office Standard (SAL)	021-08183	Office Standard 2013	http://lsw.to/y5f
SQL Server Standard Edition (Processor)	228-03159	SQL Server Standard 2008 R2	http://lsw.to/y5b
SQL Server Standard Edition (SAL)	228-05018	SQL Server Standard 2012	http://lsw.to/y5m

SQL Server 2008 Web Edition (Processor)	TFA-00009	SQL Server Web 2008	http://lsw.to/y5D
SQL Server 2012 Web Edition (2 core license pack) (minimum 4 cores per server/ CPU)	TFA-00523	SQL Server Web 2012	http://lsw.to/y5J

23.2. Customer may not: a) reverse engineer, decompile, or disassemble any Microsoft software, unless such is expressly permitted by applicable law and then following at least thirty (30) days advance written notice to LeaseWeb; b) perform any act which is not in compliance with the applicable Microsoft license terms; (c) remove, modify or obscure any copyright, trademark or other proprietary rights notices that are contained in or on the Microsoft's software or documentation; nor d) use the software on any device other than LeaseWeb provided Dedicated Equipment or Instance.

23.3. For any Microsoft software used by Customer or its End User on a Dedicated Equipment or Instance in a Data Center (regardless whether provided by LeaseWeb), Customer must immediately upon request of LeaseWeb, sufficiently demonstrate to LeaseWeb's satisfaction, that it is authorized to use such software and that it or the End User uses such software in accordance with Microsoft's license terms.

24. LEASEWEB BACKUP SERVICE

24.1. LeaseWeb's backup service (the "Backup Service") is designed to (i) allow Customer to store a copy of Customer's server data (such as operating system, applications and data components) on a shared storage platform, and to (ii) facilitate Customer to restore the backed up data to Customer's server.

24.2. Customer shall be fully and solely responsible for (i) downloading the backup Software that is made available by LeaseWeb as part of the Backup Service and installing this Software on the authorized number of Customer server(s) within the LeaseWeb Network, (ii) configuring the Backup Service and said software, (iii) testing the Backup Service and said software regularly to determine if it is capturing Customer's server data properly and without any errors, and (iv) ensuring that there is sufficient storage room for Customer's backup data.

- 24.3. LeaseWeb will charge Customer for any data traffic between Customer's server and the storage platform resulting from the use of the Back-up Service, in accordance with Chapter B (IP Connectivity).
- 24.4. The Backup Service is provided on an "as is" and "as available" basis, and LeaseWeb does not guarantee that the Backup Services will be uninterrupted, timely, secure or error-free. Because of the technical limitations regarding backups on live servers and the possibility of data corruption, LeaseWeb in no way guarantees the usability of any data from any given backup set.
- 24.5. LeaseWeb grants Customer a non-assignable and non-exclusive license to use the Software made available to Customer by LeaseWeb as part of the Backup Service. This license is for the sole purpose of enabling Customer to use the Backup Services as provided by LeaseWeb, in the manner permitted by Agreement. Customer may not copy, modify or distribute any part of this Software, nor may Customer reverse engineer or attempt to extract the source code of that software, unless laws prohibit those restrictions or Customer has LeaseWeb's express written permission.
- 24.6. LeaseWeb shall be entitled to erase and delete any and all backed up data from the shared storage platform upon the earlier of (i) the termination of the Agreement, and (ii) the termination of the Order for the Backup Service.
- 24.7. LeaseWeb reserves the right to modify, suspend or discontinue the Backup Service at any time and without any liability to Customer. If LeaseWeb decides to discontinue the Backup Service, it will provide prior notice to the Customer.
