

# Give your startup a flying start

*“Whatever you do,  
keep listening to your  
customer. They will tell  
you exactly what they  
need.”*

**LAURENS ROSENTHAL,**  
INNOVATION DIRECTOR  
AND FOUNDER,  
LEASEWEB

*Take full advantage of our world class infrastructure the easy way. Our Startups Program includes financial and technical support so that you can quickly build and scale your new business in the Cloud.*

#### **Help with financing your internet infrastructure**

Depending on which country your startup is legally registered in, we will offer \$25,000, €25,000 or SGD25,000 in credit for a whole year which can be used to fund the use of any of our internet infrastructure solutions.

#### **Help with technical issues**

Getting started in the Cloud can seem daunting but we'll give you all the technical help you need. That includes 1:1 assistance from a LeaseWeb specialist to set up the architecture that's right for your particular business and 24/7 support once you're up and running.

#### **Help with growing your business**

Mentoring on technical, business, sales and marketing issues will help you navigate some of the hurdles all startups face. We'll also feature your company in our own marketing materials to give you further exposure.
